

Pakorn Chaowanaprasert (Kur)

Lead Developer

patapuputapa@gmail.com 0885797989 Bangna Bangkok, Thailand

Summary

Hi, I am a Lead Developer with 8 years of experience. My work spans architecture, database schema design, production deployment, and leading a team building CRM platforms for 15+ enterprise clients such as Millennium Auto and CP-Meiji. What I enjoy most is building config-driven systems that teams can extend without waiting on a developer, and these days I work AI-first with Claude Code.

- Built CRM platforms for 15+ enterprise clients, each with its own configuration
- Built config-driven systems that brought new-page work down from 2-3 days to 2-3 hours
- Owns the whole cycle: architecture, development, deployment, migration
- Leads a team of 5 and set up a code review culture that helps keep quality consistent
- Runs CI/CD on Docker, Nginx, Jenkins, and Kubernetes across Azure and IBM Cloud
- CRM across 90+ pages, covering Lead, Opportunity, and on to Customer 360
- Real-time on Socket.IO: chat, AI chatbot, live notifications

Skills

Core Stack

TypeScript JavaScript React Next.js Node.js PostgreSQL Prisma Redis Docker Claude Code

Languages: JavaScript, TypeScript, PHP

Frameworks: React, Next.js, Node.js, Ant Design, Material-UI, Vue.js, Prisma, Socket.IO

Databases: PostgreSQL, MySQL, Redis

DevOps: Docker, Nginx, Jenkins, Kubernetes

Tools: Git, n8n, Figma, GitHub Copilot, Kiro (AI IDE), Claude Code

Soft Skills: Config-driven System Design, Team Leadership & Code Review Culture, Database Schema Design & Migration Planning, Translating business requirements into technical solutions, Cross-project Code Sharing & Reusable Architecture, CRM Domain Expertise (Sales, Marketing, Service, Field Service), Multi-tenant SaaS Architecture Design, Real-time System Design (WebSocket, Event-driven), AI-Assisted Development with Claude Code

Experience

MSC (Team 5)

Development Leader (2025-01 - present)

Senior Programmer (2021-01 - 2024-12)

Programmer (2019-09 - 2020-12)

Joined as a Programmer in 2019, promoted to Senior in 2021, and Development Leader since 2025. Leads a team of 5 building CRM platforms for 15+ enterprise clients.

- Architected and designed database schemas for both S-CRM (React SPA) and Next-S-CRM (Next.js 15)
- Maintained the dev, UAT, and production environments on Azure and IBM Cloud
- Built 80+ shared UI components reused across client projects
- Planned and executed migration from legacy systems, covering database schema, data mapping, and UX flow

CDG

Programmer (2017-11 - 2019-04)

Developed web applications for a government agency's examination system and royal decoration (honors) system.

- Developed frontends with Vue.js and React
- Built backend APIs with PHP
- Designed and optimized SQL queries

Projects

S-CRM Platform - CRM Platform

The company's flagship CRM platform, deployed to 15+ enterprise clients, each with its own customizations and modules. Maintained and continuously developed for over 4 years.

Tech: React 16, JavaScript, Ant Design, Material-UI, Styled Components, Socket.IO, Chart.js, Nivo, React Router, Redux, Axios, PostgreSQL, Redis, Docker, Nginx, Jenkins, Kubernetes, Azure AD (MSAL), GitHub Copilot

Full-S-CRM (Next-S-CRM) - CRM Platform

A next-generation CRM that fully redesigns the architecture of the original S-CRM, moving from a React SPA to the Next.js 15 App Router, replacing raw SQL with Prisma ORM, adding a Redis session and cache layer, and introducing a config-driven CRUD system that cuts boilerplate by over 70%.

Tech: Next.js 15, React 19, JavaScript, PostgreSQL, Prisma, Redis, Docker, Nginx, Ant Design, Tailwind CSS, MinIO, Azure AD, n8n, Kiro (AI IDE), Claude Code

CP-Meiji Material Request - Enterprise Web App

A Material Request system for CP-Meiji that I designed and built from the ground up, covering multi-department approval workflow, a config-driven form engine, migration from the legacy system, and four document types (Create, Extend, Edit, Deletion).

Tech: Next.js 15, React 19, JavaScript, PostgreSQL, Prisma, Redis, Ant Design, Tailwind CSS, MinIO, Azure AD (MSAL), Lucia Auth, Docker, Nginx

S-ERP Dashboard - ERP System

Built dashboards for an ERP system and advised on recalculation logic.

Tech: React, JavaScript, PostgreSQL, n8n

CRM Core Modules (S-CRM) - CRM Module

The core modules of S-CRM, designed and built in-house, handling a wide range of work across lead capture, sales, and after-sales service.

Tech: React, JavaScript, Ant Design, Chart.js, Nivo, ExcelJS, Google Maps API, Socket.IO, PostgreSQL

S-Loyalty Platform - Loyalty & CRM Platform

A loyalty platform with both a member-facing app (points, reward redemption) and an admin back-office. Came in to bootstrap the translation system and a centralized CRUD framework the team could immediately build on.

Tech: Next.js 15, React 19, JavaScript, Prisma, PostgreSQL, Redis (ioredis), Ant Design, Tailwind CSS, next-intl, Lucia Auth, Arctic (OAuth), MinIO, MDX Editor, dnd-kit, Docker, Yup, GitHub Copilot

S-Hospitality Config-Driven Master - Component System

A component and config system for master pages that can be set up entirely through config, covering record list, small list, and form layouts.

Tech: Next.js, React, JavaScript

Chat Assistance for S-CRM - Feature / Integration

An in-app CRM chat system that wires real-time messaging into workflow automation for auto-assign, auto-reply, and escalation.

Tech: React, Socket.IO, n8n, PostgreSQL, Ant Design, Emoji Picker

Customer Portal - Customer Service / Case Management

A new product for managing support cases from opening and status tracking through reopening to closure. Built as a modular product that can be bundled with CRM customer service or sold standalone.

Tech: Next.js 15, React 19, TypeScript, PostgreSQL, Prisma, Redis, Tailwind CSS, Ant Design, Docker, Nginx, Claude Code

Education

Eastern Asia University

Bachelor of Engineering - Computer Engineering (2012-2017) GPA: 2.99

Courses & Training

- n8n Workflow Automation
- Kiro AI-Powered IDE
- AI-Assisted Development Workflow
- Claude Code Agentic Development
- Agentic Development with Claude Code
- System Design Patterns
- Platform Engineering
